You can print the sheet music, beautifully rendered by Sibelius, up to three times. You can either print the sheet music from our website, or from Playground's Mac and PC applications. We will keep track of all your purchases, so you can come back months or even years later, and we will still have your library available for you. By downloading Playground Sessions(FREE), and connecting your MIDI keyboard, you will be able to practice Fight Song by Rachel Platten, section by section. With Playground, you are able to identify which finger you should be using, as well as an onscreen keyboard that will help you identify the correct keys to play. You can also slow the temp way down, which is great for learning a new song. At the end of each practice session, you will be show your accuracy score and the app will record this, so you can monitor your progress over time. Finally, when you've mastered Fight Song, you can record yourself playing it and share it with your friends and family.
